

Back box cover plate duplex installation instruction

1

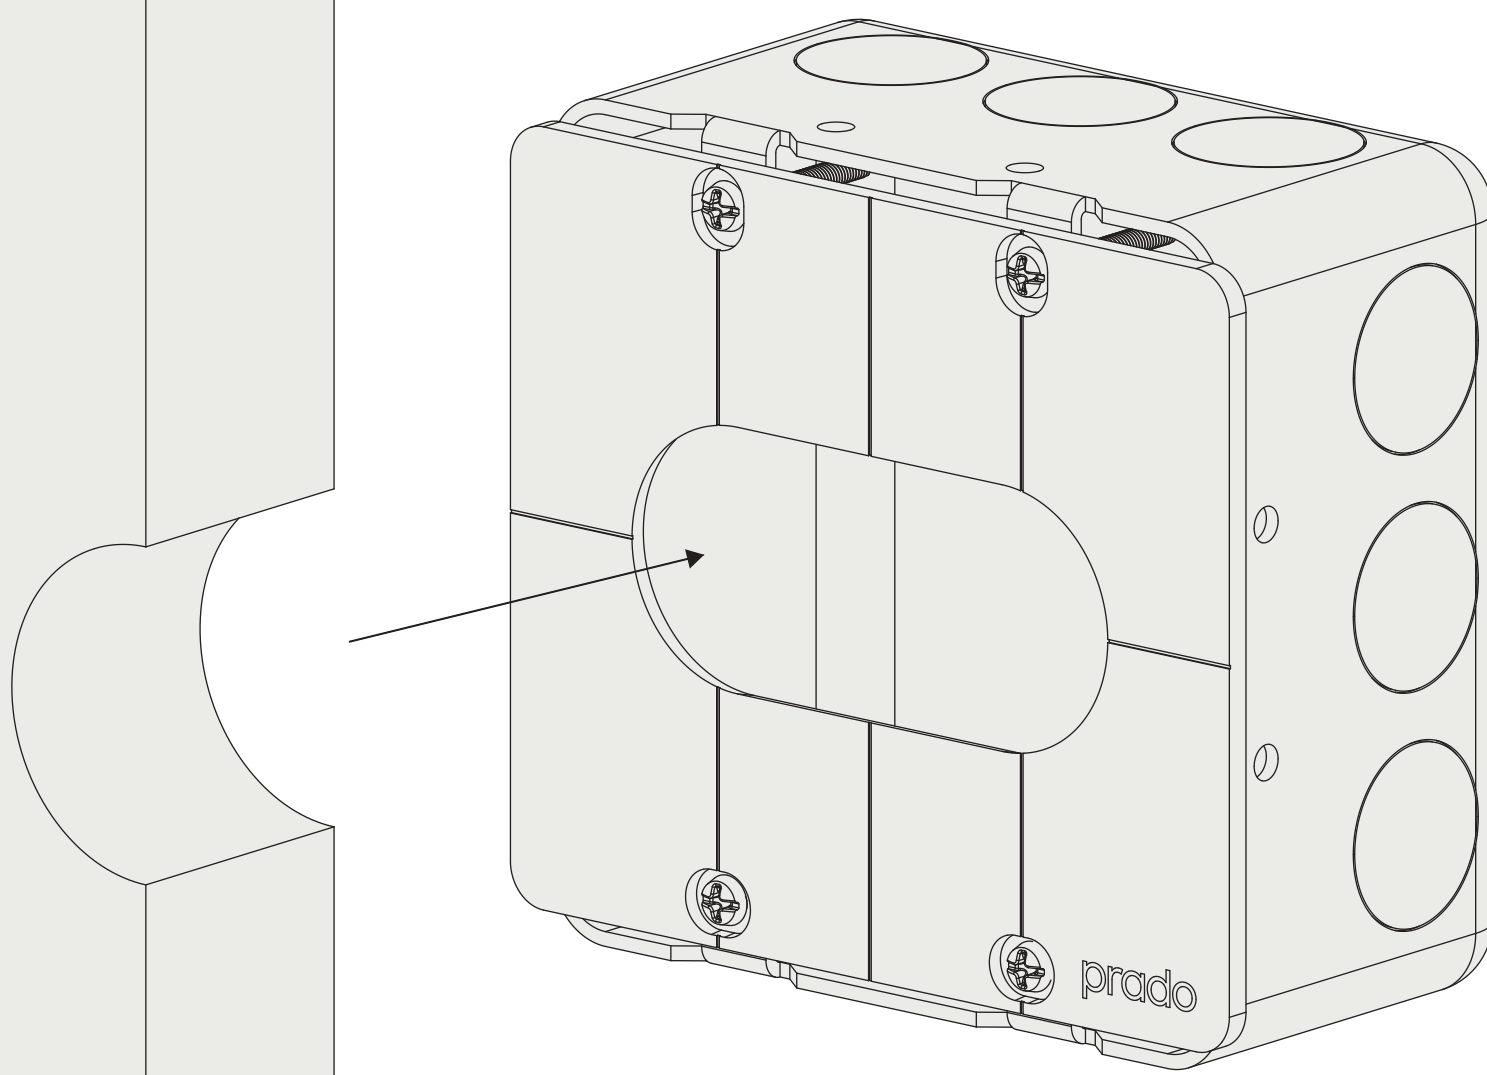

or

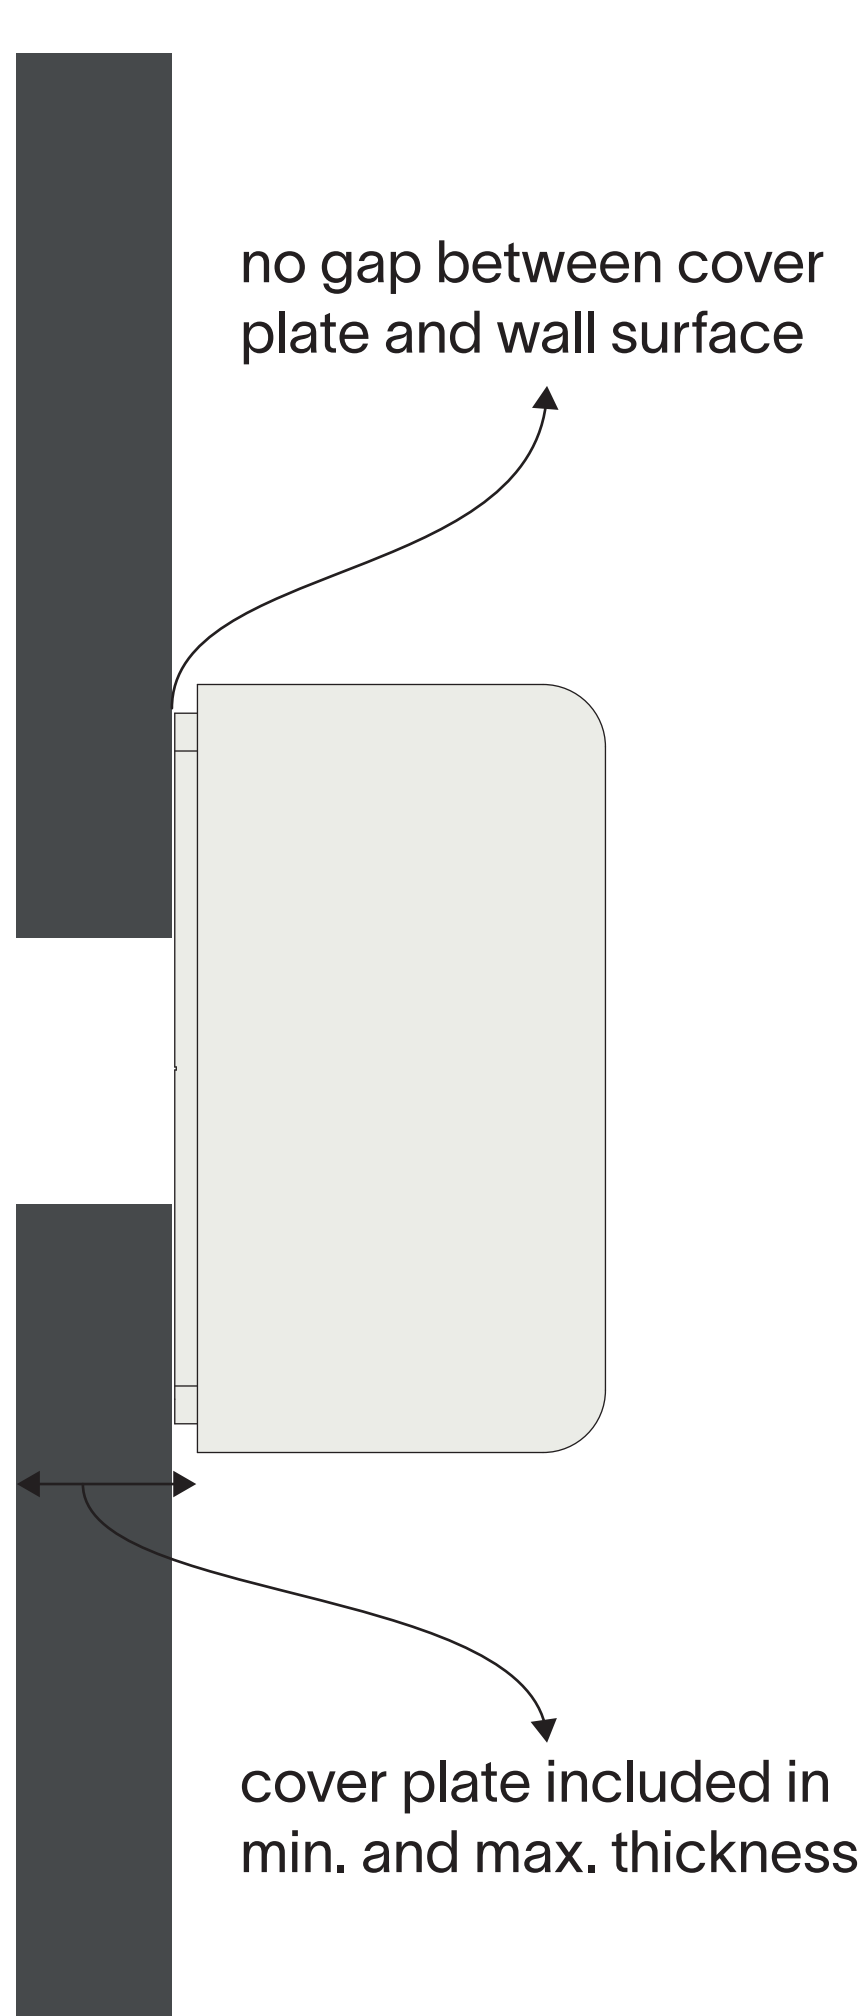

Install the cover plate onto the back box. Both metallic and plaster back boxes are possible.

2

Install the wall surface onto the back box cover plate.

3

Make sure the wall surface is installed directly onto the back box cover plate.

Check installation manual of the final product for the minimum and maximum thickness of the wall surface. Make sure to include the back box cover plate into this thickness.

Thank you for choosing prado.
